

~ We Make Business Easy...! And More Profitable ~

Most Advanced POINT OF SALES

JMSCPOS

Effortless Checkout, Seamless Success

Outstanding Features

Features that makes our POS stand apart from the rest and will also help you grow your business.

Scan Data

One of the most praised features of JMSC POS, which has been integrated to make your investment earn for you with each sale you make.

JUUL RACS Compliance

JMSC POS is JUUL RACS compliant POS System which ensures that transactions cannot be completed unless the given criteria's met.

Non-Cash Adjustment

JMSC POS supports Non-Cash Adjustment features, which will help you to reduce merchant processing fees.

Automate Purchase Order

You just have to upload your purchase invoice into the system and it will automatically update the inventory as per the purchase invoice instantly which will save you a lot of time.

AGDC API

With the AGDC API feature, you will be able to apply all the Buydown, deals, and loyalty with just one click.

Preloaded Database

This feature will save you from the loathing work of adding each and every product into the Point-of-Sale system.

Customize User Security

You can create each account with a different level of access to the POS, where store manager can have access to more reports and data than any other employee.

Help by Experts

Get complete online training and expert support in English, Gujarati, Hindi, and Arabic, 365 days a year (business hours).

Remote Access

With our mobile app, you can access your POS system from anywhere, at any time. Moreover, you can now overlook your store's inventory even when you are not physically present in the store which will help you to update stock effortlessly.

Easy Backup

Our system will take daily backups of your data in your local storage device or you can even make it more secure with our premium cloud backup service. So, in case of any problem, none of your data will be lost.

Bio-Fingerprint Tech

With just employees' thumb impression, they will be able to log in to the POS. This will not only make the process easy but also remove any chances of 'Buddy Punching' and eventually save you money.

Buy Down, Deals, Loyalty

Whatever deals or discount policy you want to run, just enter its details in the system. At the time of the relevant transaction, JMSC POS will automatically prepare the bill as per the discount policy. So, your employees won't need to remember about discount policy related to all the products.

Market Competition

Stay ahead in the fiercely competitive market with our most advanced point-of-sale solution, empowering your business with seamless transactions, robust inventory management, and powerful analytics.

Security vulnerabilities

Scan Data Services

Easy, Secure and Automated Scan Data

JMSC POS is offering a Scan Data Service that will allow you to take advantage of this great opportunity for more profit from your sales.

One of the most praised features, which has been integrated to make your investment earn for you with each passing day. With a lot of companies rolling out reward policies & schemes for their loyal retailers, the Scan Data function earns back for you with each sale you make.

The Scan Data function makes available part of your sales data, which is particularly only the sales figures for trend analyses and studying for companies such as Altria (Philip Morris), RJ Reynolds, JUUL, ITG Brands, etc. **JMSC POS** is certified with major companies for Scan Data. These companies provide motivational incentives for providing such sales trends data at regular intervals. Such data is asked for, to improve their production & delivery timelines to various regions as well as restructure any or all sales promotion-based activities for further driving up their sales. The benefits of these reports, which need to be sent regularly, are reflected in your bank accounts through our Buy Down function!

Thankfully, with **JMSC POS**, your scan data can be easily shared with them. Many companies like Altria and RJ Reynolds make use of this data to improve their inventory process and to gain insight into what is selling and what is not. In return, they offer you discounts that can be passed right back to your customers, allowing you to be more competitive in your pricing.

Other Benefits Of Scan Data Program: 2 Pack Promotions/Loyalty Program

There are even more than financial incentives. Vendors often use the data to help you with reordering and maintaining sponsored promotion. Start taking advantage of this great opportunity for more profit. JMSC POS submits the necessary data for you to comply with the program requirements.

We collect \$350 yearly per store for providing this service.
Though you may earn much more using these Services.

Please check estimated rebate calculation below:

Philip Morirs \$10/carton cartons/week	RJ Reynolds \$15/carton cartons/week	US Smokeless \$.15/roll roll/week	Rebate \$/Year
